**Port Property Specialist**  
**StigConsult, Netherlands**

---

Arènso is a port property specialist. he makes strategies for port developments and the set up of landlord operations. Further he is a registered valuer active in ports.

With his background in logistics and property he is capable to define the right characteristics for an area or a location as a basis for developments, transactions and valuations. Goal is to accommodate logistics competitively.

Arènso used to be director development at the Port of Rotterdam Authority. Before that he was site manager and project manager for DHL. Today het is partner with Stig. Stig is a hands on strategy oriented advisory firm working in ports, port cities and corridors.

In the past year Arènso was the project manager for the development of a new port area along the Panama Canal for the Panama Canal Authority.
