

# Calgary Transportation & Logistics Sector Opportunities

From Study to Action

Calgary Region as a Transportation Hub December 2, 2010 Calgary

## Presentation Objectives

Summarize key messages from Calgary
Transportation and Logistics Opportunities Study

Explore need and options for collective action to address Calgary T&L Sector issues and opportunities

Identify a champion(s) to move initiative forward

## Calgary Transportation & Logistics Opportunities Study

Mandate

- Study initiated by Calgary Economic Development (client)
- Private and public sector Steering Committee

Objectives

- Identify strengths and weaknesses of Calgary's T&L Sector
- Identify issues and opportunities for collective action
- Identify need and strategy for new, Calgary specific, T&L industry "council"

Scope

- Focus on T&L sector in Calgary and surrounding region
- Secondary research. Extensive industry consultation process.
- Input from Steering Committee, Joint Committee of CLC & Chamber

## What Does Calgary's T&L Sector Look Like?

#### Major distribution center / hub for Western Canada

- Central position (geographic & population/markets)
- Several major Distribution Centers (DCs) already in Calgary
- Significant population within 1 day drive

#### Critical mass of T&L sector players/ activity:

- Both CN, CP have presence, terminals
- Major center for trucking activity/companies
- Calgary international airport
- Significant presence of 3PLs

#### Cross of Asia-Pacific Corridor & Canamex Corridor

Strategic location for imports & exports

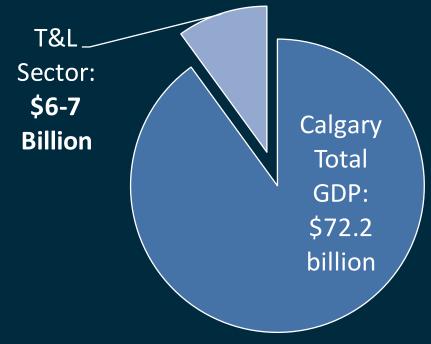

#### Economic Impact: GDP, Support to Other Sectors

T&L Sector represents 8-10% of total economic activity

Transportation underpins the competitiveness of all other sectors of the economy

Source: CPCS Analysis of 2006 Census data for Calgary CMA

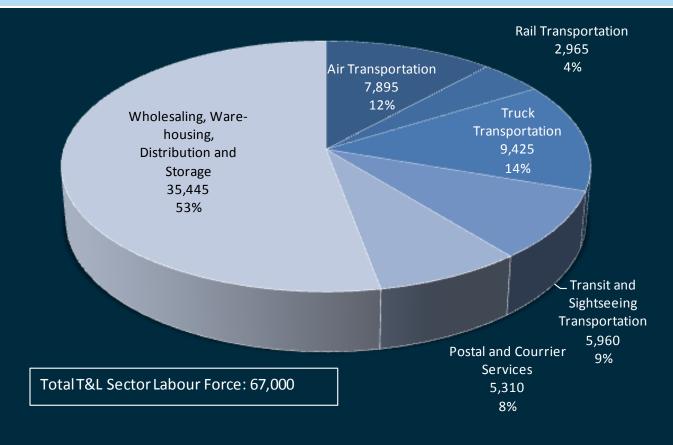

#### **Economic Impact: Jobs**

Total Calgary T&L Sector Labour Force: 67,000 jobs

•Wholesaling, warehousing, DC activity represents 53%

Source: CPCS analysis of estimates from the 2006 Census, Statistics Canada

Note: Calgary Census Metropolitan Area

## Strengths & Weaknesses I

- Transportation Infrastructure
  - No major issues: relatively uncongested network provides access to available land
  - Public transit access to industrial parks is an issue (re: labour)
- Labour
  - Shortages of less skilled labour (across sectors)
  - But deep pool of skilled labour

### Strengths & Weaknesses II

- Serviced Land Availability and Cost
  - A challenge for some stakeholders
  - A strength relative to Vancouver, a weakness relative to Winnipeg/Saskatchewan
- Economic Diversification
  - Energy boom has been a strength because of above average growth
- Clustering & Critical Mass
  - Large concentration of T&L firms

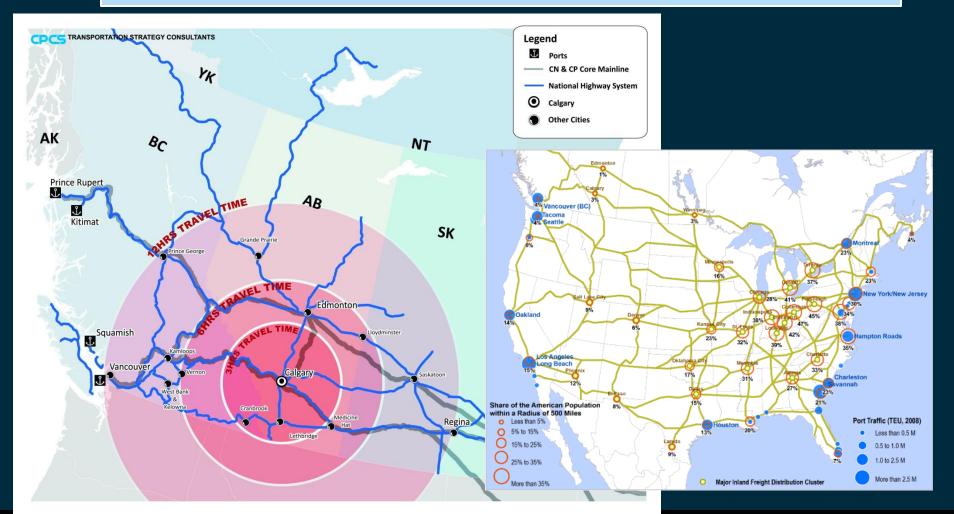

#### Strengths & Weaknesses III: Geographical Position

Calgary is centrally located to serve Western Canada But Calgary is no Chicago (3% of American population within 800km, compared to 28% from Chicago)

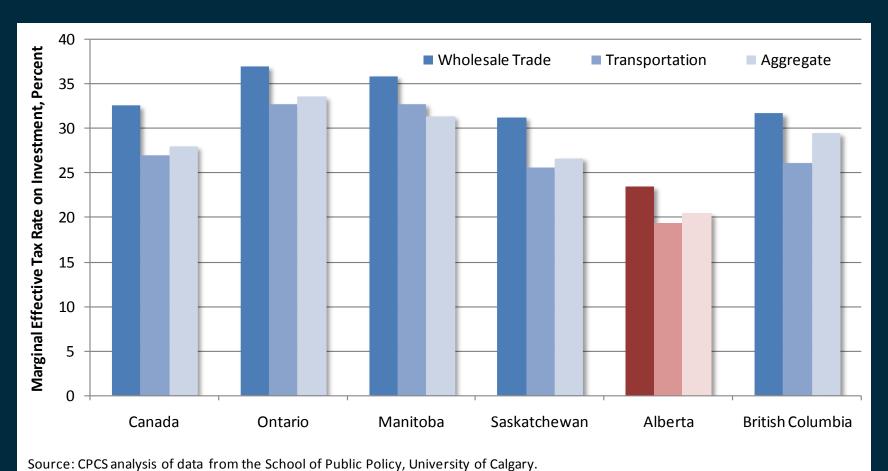

#### Strengths & Weaknesses VI: Taxes

#### Low marginal effective tax rate on capital investments

#### Trends I

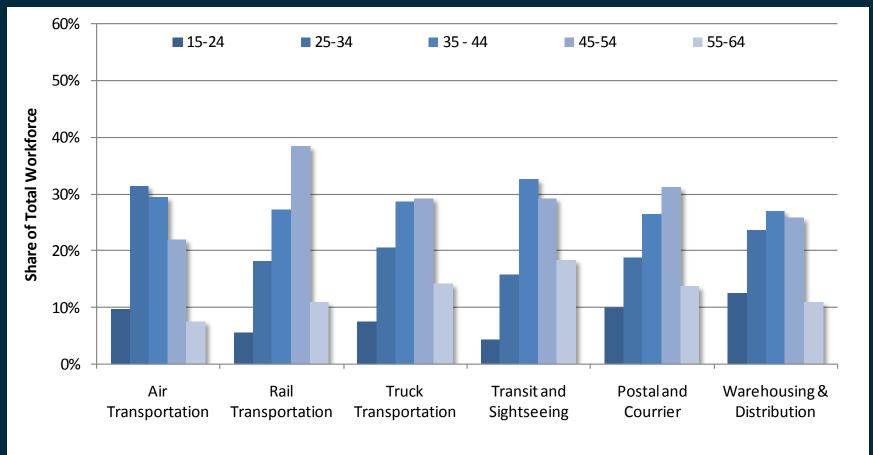

- **—** Labour
  - Negative perceptions of T&L occupations
- Growth of Rail Intermodal
  - Importance of the North American intermodal terminal network
- Emergence of Calgary as a Distribution Hub for Western Canada
  - ? Greening of Supply Chains

#### Trends II: Retirement of the Baby Boom Generation

#### Aging T&L Sector Labour Force

Source: CPCS analysis of data from Statistics Canada 2006 Census of Canada, Calgary Census Metropolitan Area.

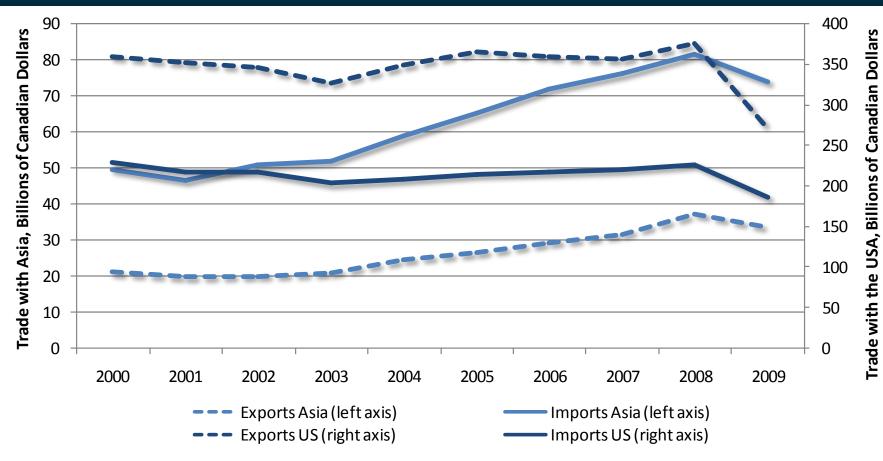

#### Trends III: Globalization and Growing Trade with Asia

#### General trend of increasing trade with Asia

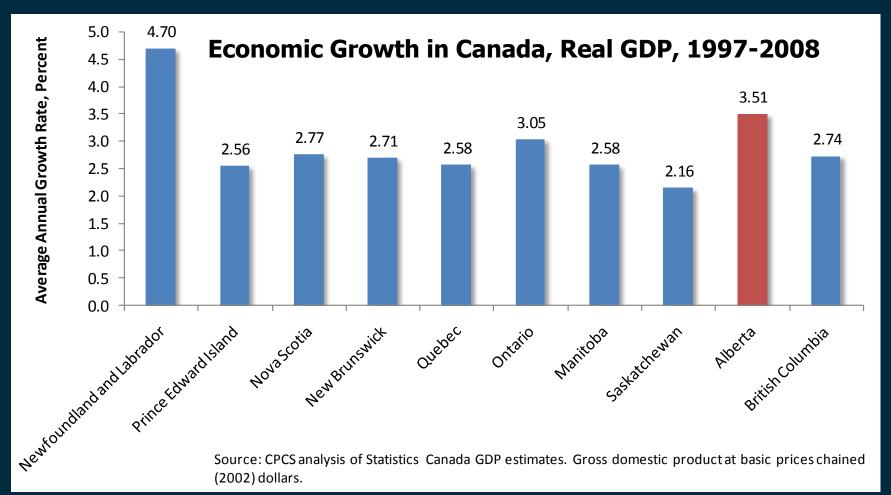

Source: CPCS analysis of data from Statistics Canada obntained through Industry Canada Trade Data Online

#### Trends IV: Strong Economic Growth

#### Strong economic growth relative to other provinces

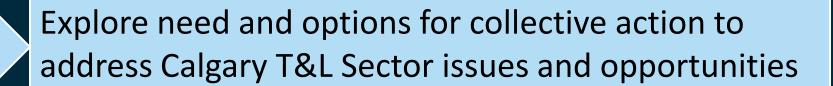

## Presentation Objectives

Summarize key messages from Calgary
Transportation and Logistics Opportunities Study

Identify a champion(s) to move initiative forward

## Needs of Calgary's T&L Sector

Strategic Needs **Operational Needs Investment Attraction Needs** Ensuring the Sector has All the Greening Supply Chains from Ring Road Marketing & Business Attraction Top to Bottom Labour it Needs Raising T&L Sector Issues with Public Transit Access to Government with One Voice: **Sharing Best Practices Industrial Parks** Advocacy Taking Advantage of Linkages with Other Similar Globalization: Growing Trade Land Cost and Availability **Organizations** with Asia

Opportunities to "tweak" but, no fire burning = limited urgency

### Typical Impetuses for Creation of T&L Councils

ce

. / producting of the control of the			
Impetus	LDASCFINTION	Relevan to Calga	
Disposition of a Major Parcel of Surplus Land	The disposition of a major parcel of surplus land is the motivation for several of the US T&L sector organizations (e.g. KC SmartPort, Memphis, Alliance	×	

Texas). T&L Infra-Infrastructure capacity limitations, either in terms of land or infrastructure such as roads, bridges, port structure

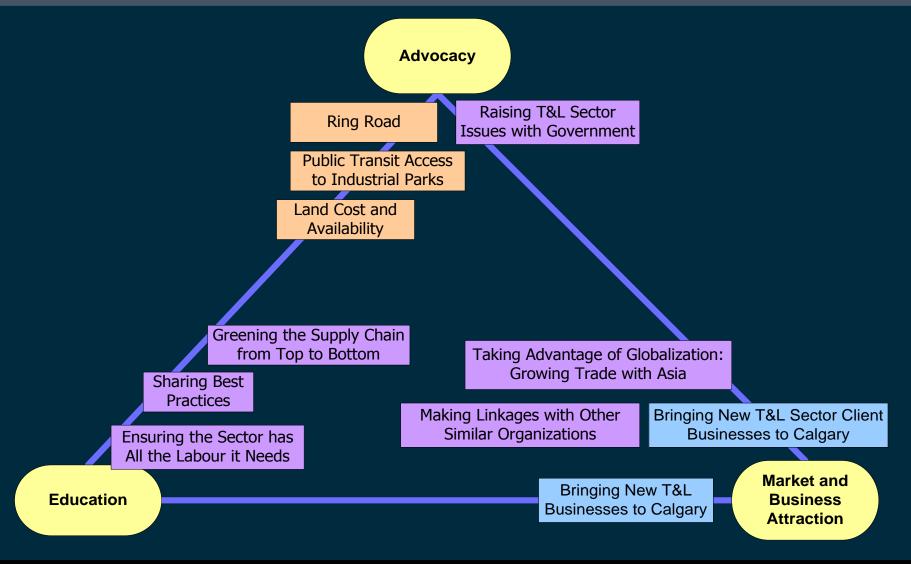

facilities, etc., (e.g. Vancouver Gateway Council).

Limited Capacity Limitations **Excess T&L** Excess T&L infrastructure capacity is common a

motivation for T&L sector organization (e.g. Halifax **Infra-structure** Capacity Gateway / Atlantic Gateway, CentrePort Canada, Memphis).

**Economic** Opportunity to attract investment. **Development** 

## Collective Action for Calgary's T&L Sector: Focus on Niche Needs/Opportunities

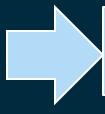

## Recognizing different interests of infrastructure and non-infrastructure players

Infrastructure Players	Non-Infrastructure Players
<ul> <li>Alberta Transportation</li> <li>Calgary International Airport Authority</li> <li>Calgary Regional Partnership</li> <li>Calgary Transit</li> <li>Canada Border Services Agency</li> <li>City of Calgary Transportation Department</li> <li>CN</li> <li>CP</li> <li>Logistics/business park developers</li> <li>Rocky View County</li> <li>Transport Canada</li> </ul>	<ul> <li>3PLs</li> <li>Airlines</li> <li>Courier companies</li> <li>Freight forwarders</li> <li>Shippers with logistics operations</li> <li>Trucking companies</li> <li>Warehouse providers</li> </ul>

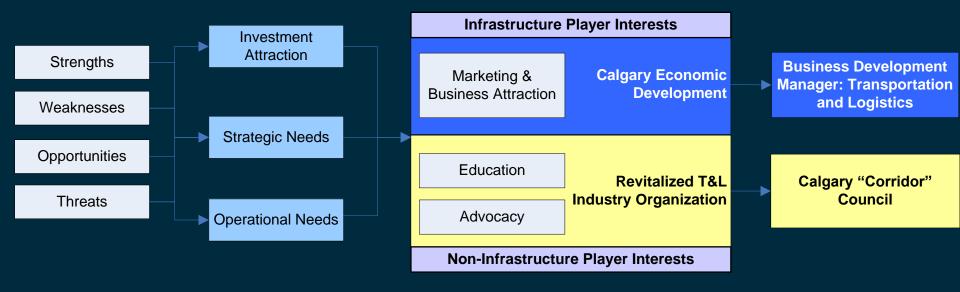

### Matching Interests to Initiatives

Aligning initiatives and actions with interests of infrastructure and non-infrastructure players

## Two T&L Sector Promotion & Development Functions:

Calgary "Corridor" Council (CCC)

Representing interests of all, including non-infrastructure players

Business Development Manager (within CED) focused on T&L Sector Investment Attraction

Representing interests of infrastructure players

## Organization and Operations

#### **Calgary Corridor Council**

- Not-for profit structure
- Private sector Board, representative of T&L sector interests
- Need for Champion(s)
- Lean organization. Part time
   ED or consultant initially
- Linkages with other organizations
- Sunset clause

#### BD Manager, T&L

- Operate within existing CED governance and mandate
- One person with significant T&L sector experience (private sector)
- Link to CCC

### Organization and Operations: CCC - Linkages

Common Needs & Objectives

Strategic Rationale for Linkage

Clear Basis for Managing Linkage

Value to Members

Linkage with Joint Committee of Calgary
 Logistics Council (CLC) and Calgary Chamber
 will require early attention as creating a
 duplicate structure would be of limited value

## Communications & Marketing Plan Outline

- Launch Phase (six months)
  - Purpose: launch CCC
  - Driven by one or more champions
  - Starting point: strategic planning session for senior representatives of key players in Calgary's T&L sector
    - Discuss coordination/consolidation with existing CLC/Chamber of Commerce Joint Committee
    - Agree on "jumping off points" (i.e. short term priorities) for the CCC
    - Solicit interest and identify next steps to establish CCC's initial Board of Directors and membership
- On-Going Phase
  - Low cost strategy at first involving website and quarterly newsletter

## Jumping Off Points: CCC

Education	Advocacy
Identify key gaps in skills required in	Contribute to Alberta's Strategic
Calgary's T&L sector by means of a	Transportation Plan 2050, recently
human resources situational analysis	launched by the Government of Alberta and scheduled to be complete by
This should be done by:	December 2010.
<ul> <li>Engaging with and leveraging the</li> </ul>	
work of exiting human resources sector councils	Conduct study on the economic impact of Calgary's T&L sector.
<ul> <li>Working with educational institutions</li> </ul>	
<ul> <li>Leveraging work of CTL, the Chamber of Commerce</li> <li>Engaging with the members of CCC</li> </ul>	Advocate for the re-launching of the completion of the Calgary Ring Road.
on needs, priorities and issues	Advocate for transit service to logistics parks on the outskirts of the city to
	improve access to labour and reduce environmental impacts from commuting

## Jumping Off Points: BDMT&L

- Develop marketing strategy, including identification of marketing priorities, target audiences, message, communication strategy, etc.
- Develop marketing plan: objectives in terms of who to meet, message, where to meet, and when to meet: shippers (importers and exporters),T&L dependent industries, freight forwarders & 3PLs, shipping lines, air lines with a potential interest in western Canada
- Target: Identify priority markets (e.g. China), priority target audiences. Initiate contact with 75-100 potential investors with an interest in western Canada.

## Presentation Objectives

Summarize key messages from Calgary
Transportation and Logistics Opportunities Study

Explore need and options for collective action to address Calgary T&L Sector issues and opportunities

## Need for a Champion

Why?

- Lead T&L sector into action. Create and drive momentum.
- Face of Calgary Corridor Council when engaging with government

What?

- Pull together initial Board of Directors
- Work with industry to identify priorities. Lead action.

Who?

- T&L sector leader from private sector
- Connected. Informed. Influential. Passionate. Time to dedicate.

When?

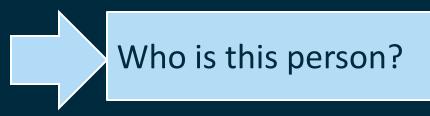

If not now, when?

## Moving Forward

Identifying a champion(s): key characteristics?

- Institutional roll-out: establishing Board of Directors
- How to best coordinate with CLC, Chamber, others to minimize redundancy?
- Refining strategy, confirming jumping off points, in line with industry interests?
- Role of CED?
- Other thoughts and actions?

## Questions & Comments?
