Questions and next steps

# Why Integrated Cargo Management?

As supply chain complexity continues to increase, the disparity between RESULTS and EXPECTATIONS continues to widen

Importers need easy-to-use, cost-effective solutions to reverse this trend and predictably deliver RESULTS

# Integrated Cargo Management delivers results

Influencing Factors	Stakeholders	ICM Impact
<p><b>ECONOMIC PRESSURES</b></p> <ul style="list-style-type: none"> <li>Focus on driving out non-essential cost, cutting capital expenditure, reducing inventory and carrying costs, and rightsizing transportation and distribution networks</li> </ul>	<p>Suppliers, Buyers, Carriers, 3PLs, Importers, Distributors, Retailers</p>	<ul style="list-style-type: none"> <li>On-demand visibility at order/item level</li> <li>Lower safety stock</li> <li>Continued high customer satisfaction</li> </ul>
<p><b>GLOBALIZATION</b></p> <ul style="list-style-type: none"> <li>Complex network of data generated by multiple trading partners using multiple platforms</li> </ul>	<p>Suppliers, Buyers, Carriers, 3PLs, Importers, Distributors, Retailers</p>	<ul style="list-style-type: none"> <li>Improve quality and timeliness of data</li> <li>Facilitate supply chain analysis</li> </ul>
<p><b>ACCOUNTABILITY</b></p> <ul style="list-style-type: none"> <li>Roles and responsibilities of and expectations between multiple trading partners</li> </ul>	<p>Suppliers, Buyers, Carriers, 3PLs, Importers, Distributors, Retailers</p>	<ul style="list-style-type: none"> <li>Configurable alerts and reporting</li> <li>Measure and manage by exception</li> </ul>

**Price Tagging**

**Packing**

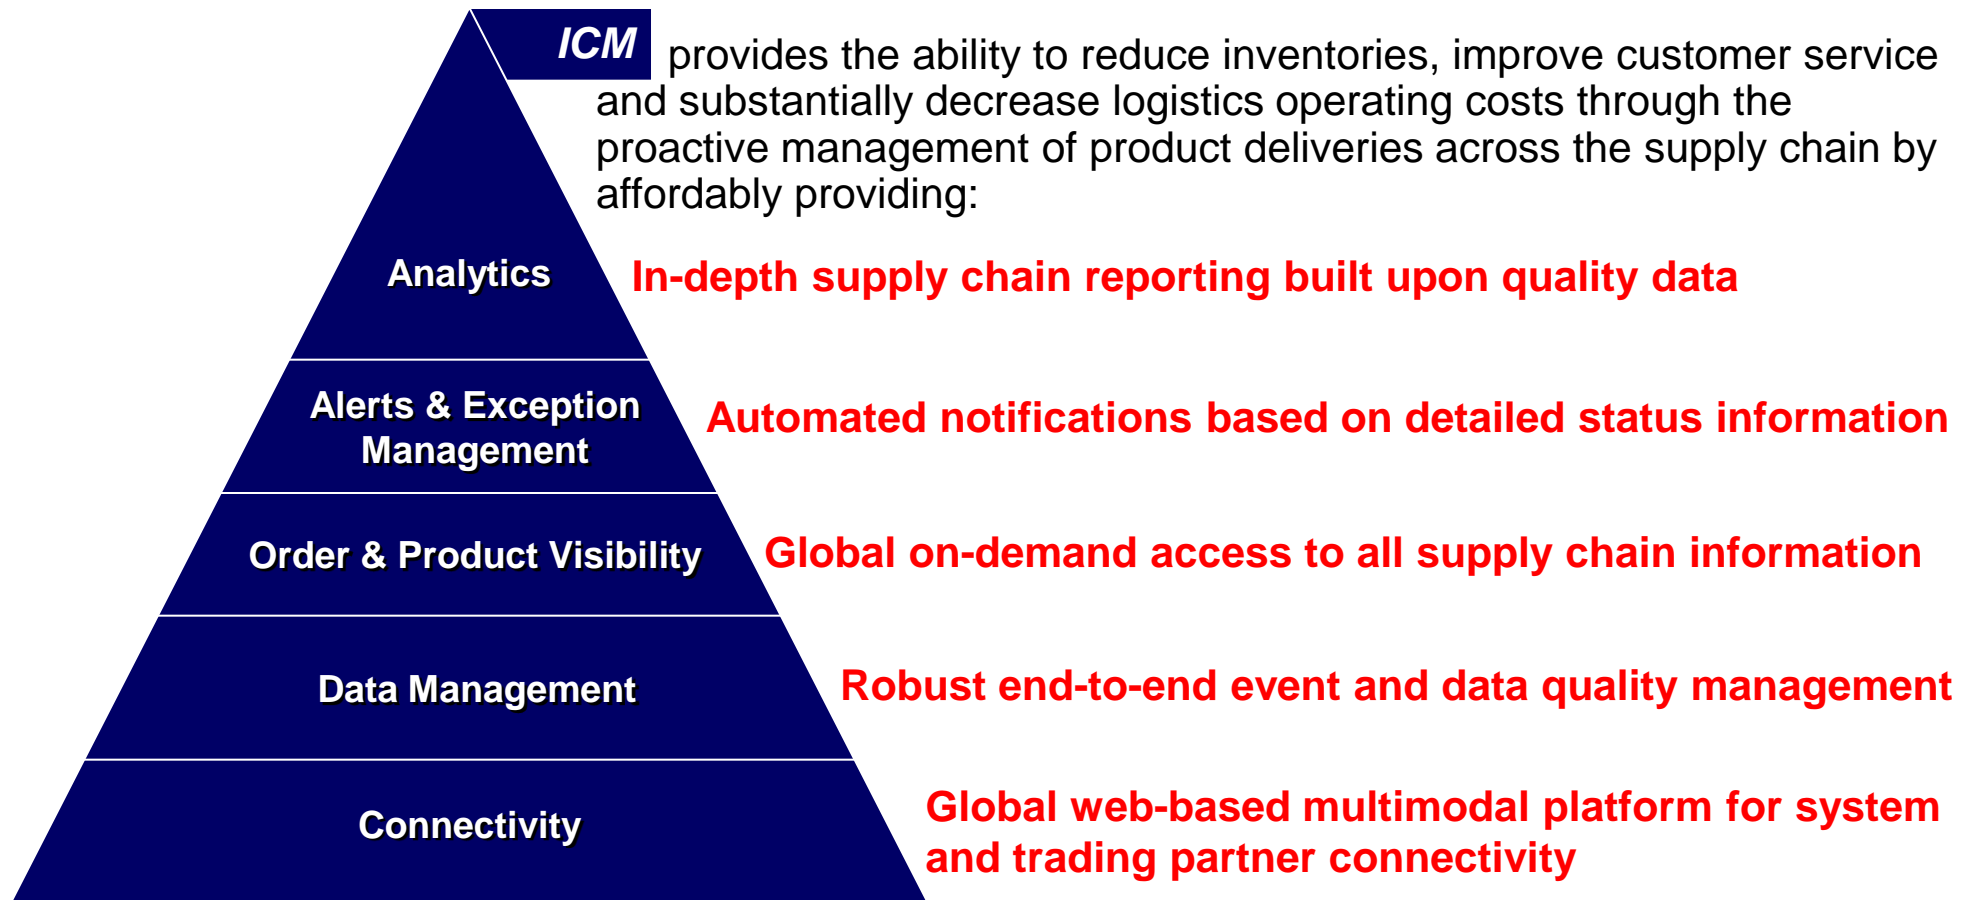

**Carton Labeling**

# Distribution-ready packing services

## Summary

- Complete end-to-end visibility – down to SKU/item or sub-SKU level
- Customizable search and reporting capabilities
  - Over any combination of 40 searchable fields
  - Scheduled or on-demand
  - Ad hoc reporting engine
- Customizable supply chain modeling
  - Performance management
  - Dynamic ETA
- Detailed exception management
  - Customizable alerts and notifications
  - Exception reporting

## Client & Trading Partner Interface

Supports standard and proprietary data exchange messaging for all international supply chain functions, including:

- Purchase or Sales Order (e.g. EDI850, 860)
- ASN (856)
- Shipment/Container Status Events (315, 214)
- Booking Requests & Confirmations (300, 301)
- Bill of Lading Instructions (304)
- Rated Bill of Lading & Invoice (310, 110)

### *using*

- ANSI x12
- EDIFACT
- XML
- Proprietary flat file formats

# Our Process

## An engineered approach to service delivery

- Solutions Design
- Implementation Process
- Operational Execution

# ICM Design, Implementation & Execution

## Solutions Design

- Engage subject matter expert to review client requirements and corresponding service provider program(s)
- Ensure planned program(s) represent best solution set for client
- Leverage repeatable supply chain solutions where ever possible

## Implementation Process

- Employ project management discipline to manage implementation
- Secure approval from all stakeholders in creation of Standard Operating Procedure
- Introduce implementation manager prior to business award of business by client

## Operational Execution

- Execute against mutually agreed scope of work and milestones per SOP
  - Manage against deliverables
  - Self-measurement on KPIs
  - Quarterly business review
- Leverage identified best practices and business process

# ICM

## Integrated Cargo Management

### Order Management

#### Capabilities

- Receive your purchase or sales orders electronically to our SCOUT application
- We apply systematic, rule-driven management to when and how your orders are processed
- We provide on-demand visibility to your order status with associated events and exceptions over the web
- We can trigger EDI messages back to your systems as needed and in your data formats

#### Benefits

- Best possible data quality – Electronic order upload into our systems eliminates error-prone duplicate data entry
- Client-specific configuration of our system ensures tighter adherence to your procedures and requirements
- We rely on automated data checks to enforce your business rules and identify potential issues as they occur

# ICM

## Integrated Cargo Management

### Order Management

#### SCOUT Technology

- Easily manages your electronic file formats
  - XML
  - EDI (ANSI x12, EDIFACT)
  - Flat file
  - Standard .csv templates

*SCOUT screen layout is designed for easy of use. Order can be viewed online at the header as well as detail level, including current status, any logged exceptions and full change history.*

**Purchase Order Detail**

## Integrated Cargo Management

### Order Management

#### SCOUT Technology

- Milestone rules established to manage specific to your SOP
- Customizable exceptions trigger alerts to us and anyone you determine

*Rules are established in the system to track and manage your SOP.*

*System-generated alerts notify DB Schenker to take action when vendor performance is outside agreed SOP tolerances and order specification.*

**Milestone Settings**

# ICM

## Integrated Cargo Management

### Vendor Compliance

#### Capabilities

- We proactively monitor vendor bookings against order ship window dates
- We communicate with vendors to ensure commitments made to you are met or logged for follow up and corrective action
- SCOUT electronically validates bookings against Orders to manage exceptions
- State-of-the-art automated vendor compliance features allow you to require vendors' booking and document creation directly in SCOUT

#### Benefits

- Minimizes communication gaps between you and your vendors
- Manages early indicators of delay such as late or missing vendor bookings by exception code
- Controls early/late deliveries or shipments of improper quantities
- Provides insight into vendor performance over time

# ICM

## Integrated Cargo Management

### Vendor Compliance

#### SCOUT Technology

- Real-time updates on order activity prior to shipment
- Systematic monitoring of vendor activities
- Pre-alerts to highlight and resolve discrepancies in ship windows, quantities and other order requirements

*As shipping orders are validated, “hard stop” and “soft warning” messages inform DB Schenker’s origin operators of allowable tolerances.*

*Example of a soft warning:*

The screenshot shows the 'Quantity' page in the DB Schenker ICM system. The page includes a navigation menu with 'Create Shipping Order' selected, and a table of shipping orders. A warning dialog box is displayed at the bottom, indicating a soft warning for Purchase Order LO106.

Purchase Order	Product Code	Ship Window Start	Ship Window End	Order Qty	Qty UOM	Shipping Order Qty	Cartons	Weight	Weight UOM	Volume	Volume UOM
LO106	2844395787	04/15/2005	05/15/2005	168	ea	200			kg		CBMS
LO110	1323657721	04/04/2005	05/01/2005	54	ea	54			kg		CBMS

Warning Dialog Box:

Microsoft Internet Explorer

Purchase Order LO106, 2844395787:  
Shipping Order Quantity (200) is greater than Purchase Order Quantity (168) by 19.048%. However, the threshold limit is 10%.  
Click OK to proceed. Click Cancel to change values.

Buttons: OK, Cancel

# ICM

## Integrated Cargo Management

### Vendor Compliance

#### SCOUT Technology

- **Automated Vendor Compliance & Operations** provides system-generated notification to vendors when expected order status update and booking activities are not performed within established time parameters
- Vendors prompted to execute next operational step in process (Status → Booking → Shipping Order)
- Eliminates delays or errors in monitoring vendor activity

The screenshot displays the 'Shipping Documents' section of the ICM web application. It features a table with columns for Document ID, Document Type, Document Description, Version, Size, Last Updated, and History. Below the table are buttons for 'Attach Documents', 'Delete Documents', and 'Present Documents'. At the bottom, there is a 'View Presentments' section with a table showing presentment details.

Document ID	Document Type	Document Description	Version	Size	Last Updated	History

# ICM

## Integrated Cargo Management

### Booking & Document Management

#### Capabilities

- Booking data is validated against order ensure match
- Manage client bookings with carriers to ensure equipment and space availability
- Control vendor documentation, including FCR, per letter of credit or other financial terms
- Documents audited for completeness, accuracy and timeliness
- Verification of commercial invoice compliance to order for unit price consistency

#### Benefits

- Ensures standard predictable processes across multiple vendors, locations and carriers
- Reduced risk of delays to missing, incomplete or late documents
- Affords reporting on vendor performance – both for documentation and cargo delivery

# ICM Integrated Cargo Management

## Booking & Document Management

### SCOUT Technology

- Documentation can be digitized
- Vendor bookings systemically generated create standard commercial invoices and packing lists based on order data
- Available as pdf for you to view online and print at any time

*SCOUT-generated commercial documents can be created, viewed printed or shared instantly.*

*Data for documents starts with order detail supplied by you supplemented by shipping order detail from your vendors.*

The screenshot displays three overlapping browser windows from the ICM system:

- Purchase Order:** Shows order details for KHMART CORPORATION, including order number L0101, date 26-JAN-2008, and description LACES SLIMMER BEACH SET.
- Commercial Invoice:** Shows invoice details for the same order, including manufacturer information (Lilo Manufacturing), invoice number DEC1500, and date February 14, 2008.
- Packing List:** Shows a detailed table of goods, including item descriptions, quantities, and weights.

On the left, a sidebar menu includes options like 'View Shipments' and 'Attach Document'. A navigation pane on the right contains 'View Docs', 'Docs', and 'Help' buttons. A blue arrow points from the 'Attach Document' button to the 'Purchase Order' window, and another blue arrow points from the 'View Docs' button to the 'Packing List' window.

MARKS AND NUMBERS	DESCRIPTION OF GOODS	QUANTITY (CARTONS)	QUANTITY (PIECES)	CUBIC METERS	GROSS WEIGHT (KGS)	NET WEIGHT (KGS)	NET NET WEIGHT (KGS)

# ICM

## Integrated Cargo Management

### Buyer's Consolidation

#### Capabilities

- Consolidate multiple orders into full container loads
- System checks to ensure process matches SOP parameters for load factor
- Support many-to-many relationship between order, line, booking, inbound vendor delivery, bill of lading and outbound container manifest
- Maintain visibility which order-line quantities are loaded in which containers throughout the supply chain

#### Benefits

- Maximize equipment utilization
- Reduce transportation and documentation costs
- Meet security compliance standards by packing your goods at certified facility
- Improve quality controls on shipment, master pack & labeling accuracy with carton sampling programs
- Control over/short/damaged product at origin not destination

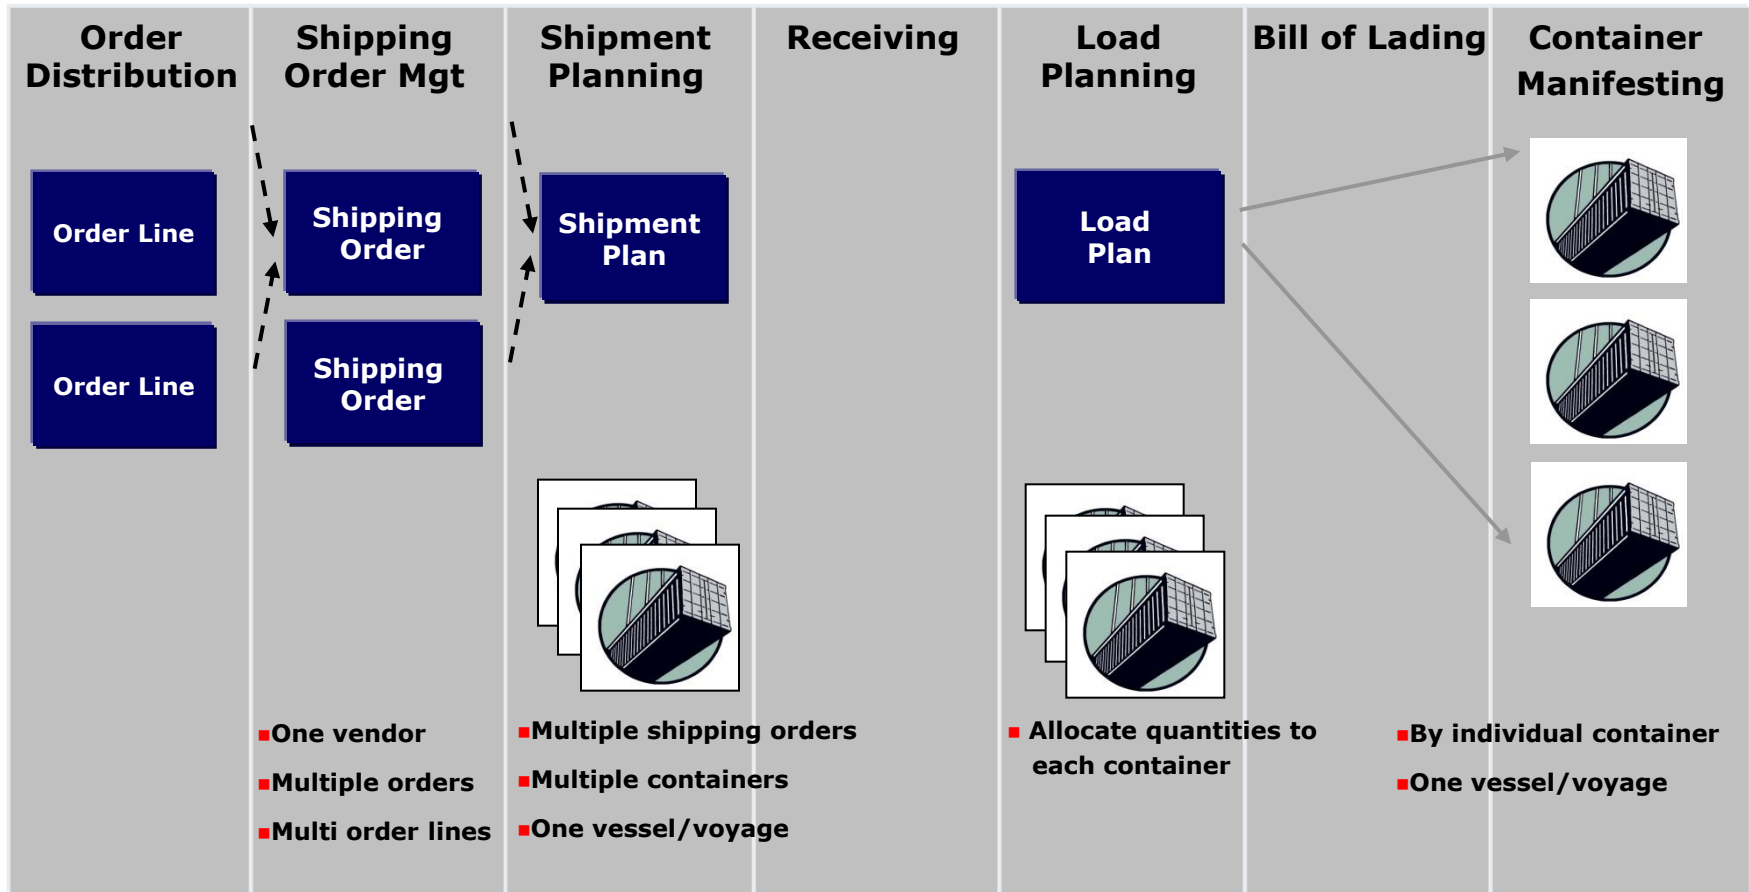

# ICM

## Integrated Cargo Management

### Buyer's Consolidation

*Systemic rules ensure "like" orders are bundled. LCL quantities from multiple vendors are received, and with full visibility to order/line within each container.*

## Buyer's Consolidation

### SCOUT Technology

- Supports order quantities to consolidate, volume/weight calculations and equipment selection
- SOP and other requirements are systematically considered in load planning process

*Shipment plans are built by considering approved Shipping Orders, consolidation business rules, and "what if" equipment selection based on utilization and price.*

**Equipment Selection**

The final equipment group you select should include only CFS equipment. If this shipment plan consists of only factory loaded equipment, you do not need to select an equipment group before continuing to the next page.  
Values in red are over the selected equipment capacity.

Equipment Group	Suggest	Qty	Utilization (Max)	Average	Hapag Lloyd	COSCO
Equipment Group 1	<a href="#">Suggest</a>	1	Vol - 99% (121 CBM)	\$5,711	\$5,763	\$5,660
Equipment Group 2	<a href="#">Suggest</a>	2	Vol - 92% (130 CBM)	\$5,711	\$5,763	\$5,660
Equipment Group 3	<a href="#">Suggest</a>	2	Vol - <b>107%</b> (112 CBM)	\$5,711	\$5,763	\$5,660

Calculate Price Difference      Calculation Method      Average      Hapag Lloyd      COSCO

## Integrated Cargo Management

### ISF Agency

*for US Importers*

#### Capabilities

- Generate the Importer Security Filing as an extension of the data collected by DB Schenker under ICM
- Automate electronic collection and build-up of data elements required for ISF
- Achieve full visibility to your ISF generate reports to monitor draft or completed filings
- Model supply chain exceptions to proactively identify and manage shipments at risk

#### Benefits

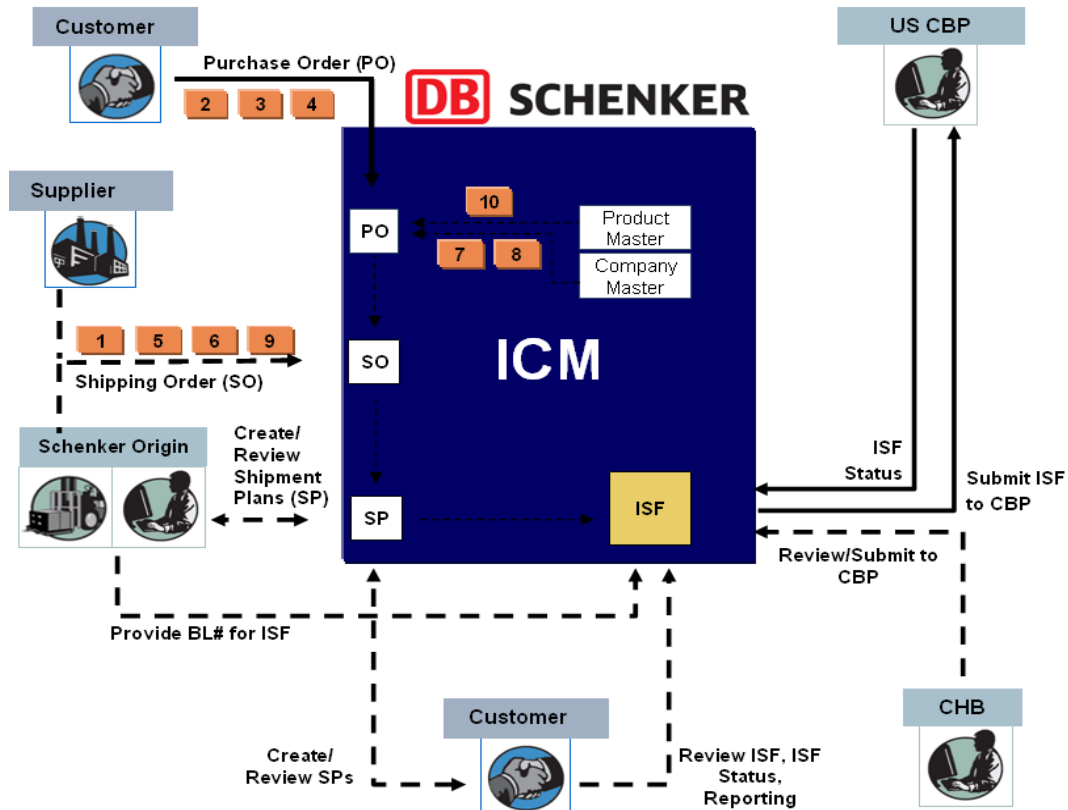

- Ensure compliance with the new ISF security filing rule from US Customs and Border Protection (CBP) – also known as “10+2”
- Minimize vendor-caused ISF delays and penalties to you
- Leverage complementary capabilities to improve vendor management and streamline downstream customs entry process

# ICM

## Integrated Cargo Management

### ISF Agency

*SCOUT is designed for collaboration between multiple supply chain partners and to manage timely and accurate capture of required ISF data elements*

### 10 Data Elements

- 1 Manufacturer name and address
- 2 Seller name and address
- 3 Buyer name and address
- 4 Ship to name and address
- 5 Container stuffing location
- 6 Consolidator name and address
- 7 Importer of record number
- 8 Consignee number
- 9 Country of origin of goods
- 10 Commodity HTS number (6 digits)

# ICM Integrated Cargo Management

## ISF Agency

### SCOUT Technology

- “10+2” data aggregated from

Code	Name	Commodity	Hobby	Food	Gro
<input type="checkbox"/>	067069	Machine Replacement Parts	Machine Replacement Parts		
<input type="checkbox"/>	100S12796	Luxomatic 2000	Office Equipment		
<input type="checkbox"/>	15290324	Wire Harness (Type-A)	Wire Harness		
<input type="checkbox"/>	15294489	Wire Harness (Type-B)	Wire Harness

- Transr

*SCOUT mandates required ISF data elements are provided or confirmed by vendors and supply chain partners. HTS number can be sourced from order or HTS parts table loaded in SCOUT.*

# ICM

## Integrated Cargo Management

### Supply Chain Control

#### Capabilities

- End-to-end supply chain visibility to shipments, containers, orders, items – your entire inbound inventory down to the SKU level
- Exception management through “smart” alert notifications
- Purchase order reconciliation and quantity exceptions tracking
- Ad hoc on-demand operational reporting

#### Benefits

- Reduce in-transit inventory and buffer stock
- Reduce delays, avoid demurrage
- Dynamic allocations improve cross-dock
- Facilitate DC-bypass straight to consumer
- Reduce expedited shipments
- Access standardized data to analyze performance across the supply chain

# ICM Integrated Cargo Management

## Supply Chain Control

### SCOUT Technology

- Virtual warehouse inventory beyond your “four walls”
- Captures and combines order and shipment information
- Data links to drill for more detail
- Data is easy to search / save search for operational use

*DB Schenker’s state-of-the-art visibility platform delivers real time, end-to-end information on your orders and shipments. Saved views based on user needs and automated reports are powerful management tools.*
